# **PulsimSuite Installation**

The PulsimSuite installer consists of 2 files, **setup.exe** and **setup.msi**. Please be sure to use **setup.exe** to install PulsimSuite, because some pre-conditions will be checked by the exe, which will not be checked when using setup.msi.

#### Installation start

Start the installation of PulsimSuite by running setup.exe.

### **Optional .NET Framework 3.5 SP1 installation**

In case that the .NET Framework 3.5 SP 1 is not installed on the computer, you are asked to do so at this moment. The following screenshot will be shown in this case.

Press "Locking Data". The following window will appear:

Uncheck the boxes that are indicated by the red ellipses in the picture above.

Copy the locking data (**New Style**, in this example: 0x1814, \*1K6 63GN 5ZYV GPPP) into the text of an email – to avoid typing errors – and send these codes to your contact person at TNO, e.g.: wilbert.vink@tno.nl

TNO will check the locking data and send back your license code(s). You will receive instructions on how to activate the license codes, so that you will be able to run all PulsimSuite functionalities.

The activation of the license codes can only be performed after having received the license codes from TNO. Please follow the instructions in AddLicCodeInstruction.pdf to do so.
